1 Summary of Performance

1.A Introduction

This Budget Implementation Report for 2025 State is prepared quarterly and issued within 30 days from the end of each quarter.

The Q1 2025 Budget Implementation Report for Kebbi State reflects the government's strategic approach to fiscal discipline, economic resilience, and people-centered development amid the evolving economic landscape in Nigeria. Kebbi State has remained focused on effective resource management and performance-oriented budgeting, while ensuring strategic steps are taken to improving ease of doing and facilitating economic growth.

This report assesses the actual first quarter fiscal performance of Kebbi State against the 2025 revised budget using classifications derived from the National Chart of Accounts (NCOA). It dissects performance across core economic segments, including Revenue, Personnel Costs, Overhead Expenditures, Capital Investments, and Other Recurrent Items.

Although the removal of the fuel subsidy has positively impacted resource allocation to the state, Kebbi State, like other subnational governments, continues to grapple with increasing prices of goods and services. The state strives to mitigate the socio-economic impact of the fuel subsidy removal on its populace by making funds available for the implementation of sterling developmental projects, infrastructure, social services, and social protection interventions. Notably, Kebbi State has directed significant investments towards community development projects, including the rehabilitation of schools, roads, and healthcare facilities1. Additionally, the state has strengthened its Internally Generated Revenue (IGR) systems to ensure sustainable funding for these initiatives. Additionally, this report provides a deep dive assessment into the state's first quarter Primary Health Care and Basic Education implementation, in line with the State development plan 2020 – 2025 and the key expectation in the World Bank Hope-Gov Project.

This Budget Implementation Report is produced by the Ministry of Budget and Economic Planning and published on the Kebbi State website.

1.B Revenue Performance

Total revenue generated in Q1 2025 amounted to #45.7 billion, (excluding opening balance) accounting for 7.8% of the total annual revenue projection. The primary sources of income included Statutory Allocation (#12.3 billion), Value Added Tax (#20.8 billion), and Internally Generated Revenue (#4.4 billion).

Statutory transfers remain dominant, reflecting the structural dependency of subnational governments on federally collected revenue. However, Kebbi State's IGR performance at 17% of the annual target reflects the ongoing reforms and IGR digitalization efforts, such as the introduction of e-tax systems and property tax mapping.

VAT collections outperformed projections relative to other sources, suggesting resilience in consumption patterns despite household income erosion. Nonetheless, donor funding and other grants underperformed, highlighting the need to fast-track project implementation and compliance with funder requirements.

1.C Recurrent Expenditure Performance

Recurrent expenditure as of Q1 2025 stood at #18.6 billion, which represents 14.4% of the revised annual recurrent expenditure budget. Expenditure breakdown is as follows:

- I. Personnel Expenditure: #10.5 billion (18% of annual personnel budget)
- II. Overhead Costs: ₩5.2 billion (11% of annual overhead budget)
- III. Other Recurrent Commitments: ₦2.7 billion

The Government has proactively facilitated the implementation of the national minimum wage in the state, and this has contributed to increased personnel costs. Despite this, overhead spending was maintained within reasonable bounds due to strict cost containment strategies across MDAs. Other recurrent expenses such as debt service, grants to LGA, and transfer payments were executed as planned to avoid defaults.

1.D Capital Expenditure Performance

Capital expenditure for Q1 2025 was \\$39.9 billion, representing 8.8% of the approved capital budget. The slow start is typical of the first quarters due to the completion of on-going project commitments and the commencement of a new procurement cycles and project mobilization phases for new projects across the state.

Strategic sectors such as infrastructure, education, agriculture, and health received the bulk of investment. Projects undertaken include the commencements of the rehabilitation of Health Infrastructures across the state, the Purchase of Equipment's for General hospital in the state, classroom construction and rehabilitation, rural road upgrades, water supply projects, and procurement of agricultural inputs for wet-season farming.

Despite funding constraints, the focus was on impactful developmental projects aligned with the various sector policies, plans and Medium-Term Sector Strategy (MTSS), with donor and counterpart funding engagements ongoing to augment the funding gaps.

1.E Conclusions

The Q1 2025 fiscal operations of Kebbi State demonstrate a strong foundation for subsequent quarters, with a revenue performance relative to the revenue received. While the economic headwinds at national and global levels present clear challenges, the state's prudent fiscal management, reforms in IGR, and focus on capital efficiency position it well for sustainable development.

Greater efforts are required to optimize donor engagement, sustain payroll reforms, and prioritize high-impact capital spending in rural and vulnerable communities.

The Q1 2025 fiscal operations of Kebbi State demonstrate a strong foundation for subsequent quarters. The state's revenue performance, relative to the revenue received, reflects effective fiscal management and strategic planning. Despite the economic headwinds at national and global levels, including the relatively high inflation and currency devaluation in the mist of progressive GDP growth, Kebbi State has shown resilience through prudent fiscal management, reforms in Internally Generated Revenue (IGR), and a focus on capital efficiency.

The state's revenue performance, achieving 7.8% of the total annual revenue projection, reflects ongoing reforms and efforts to enhance Internally Generated Revenue (IGR). The introduction of e-tax systems and property tax mapping has contributed to this positive outcome. Additionally, VAT collections have outperformed projections, indicating resilience in consumption patterns despite economic pressures.

On the expenditure side, Kebbi State has managed to maintain stability in its fiscal operations. Personnel costs have increased due to the implementation of the national minimum wage, yet overhead spending has been kept within reasonable bounds through strict cost containment strategies. Capital expenditure, although starting slow due to procurement cycles and project mobilization phases, has focused on impactful developmental projects in infrastructure, education, agriculture, and health.

To ensure sustainable development, Kebbi State must continue to optimize all available revenue sources (including aids, grants and performance for results activities), sustain overall fiscal and payroll reforms, and prioritize high-impact developmental capital spending in rural and vulnerable communities, while tackling insecurity.

4 Primary Healthcare Budget Performance

4.A Overview

In Q1 2025, the Primary Healthcare (PHC) sector in Kebbi State continued to play a vital role in strengthening the foundational tier of healthcare service delivery. The sector recorded a total expenditure of \$376 Million, which accounts for 1.8% of the annual PHC budget. This reflects the government's ongoing commitment to improving access to essential health services across communities.

The expenditure structure shows a predominant allocation to personnel costs, driven by the sustained employment of health workers under the State Primary Health Care Development Agency. Additionally, recurrent spending supported the provision of free maternal and child health services, health worker capacity building, routine immunizations, and disease surveillance.

Capital investments targeted the upgrade and equipping of Primary Health Care Centres (PHCCs) in underserved LGAs. Notable projects included solar-powered cold chain installations, supply of medical consumables, and borehole construction to enhance WASH conditions at PHCCs.

Despite these gains, challenges such as inadequate staff in remote PHCs, delays in counterpart fund releases, and infrastructure gaps remain. However, the operationalization of the Basic Health Care Provision Fund (BHCPF) has significantly improved access to primary care services, especially in rural communities, with direct facility funding and drug-revolving schemes gaining traction.

5 Basic Education Budget Performance

5.A Overview

The Basic Education sector in Kebbi State recorded **\#1.6** billion in Q1 2025 expenditure, accounting for 11.4% of its annual allocation. The budget performance supports the state's strategic thrust to reduce illiteracy, increase enrolment, and improve the quality of education delivery.

Personnel expenditure accounted for the bulk of recurrent costs, covering salary payments to primary and junior secondary school teachers across the 21 LGAs. Administrative overheads enabled school monitoring, inspectorate services, and teacher training programs aimed at improving pedagogical standards.

Capital expenditure was directed towards the construction and renovation of classrooms, perimeter fencing, and provision of furniture in selected schools under the State Universal Basic Education Board (SUBEB). Special attention was given to girl-child education through sensitization campaigns and the expansion of safe school spaces.

In collaboration with UBEC and development partners, Kebbi State also implemented inclusive education programs, early childhood care centers, and digital learning pilots in urban schools. However, teacher deployment imbalance, inadequate instructional materials, and maintenance backlogs remain major bottlenecks.

The government remains committed to improving educational outcomes by leveraging data-driven planning, community school management models, and continued investment in infrastructure and teaching quality.
