# 1 Summary of Performance

## 1.A Introduction

This Budget Implementation Report (BIR) for Quarter 1, 2026 covers the fiscal period from 1 January to 31 March 2026. It is prepared quarterly by the Ministry of Budget and Economic Planning and published on the Kebbi State Government official website within 30 days from the end of each reporting quarter, consistent with the State's commitment to fiscal transparency and open government.

The Q1 2026 BIR is the first quarterly fiscal report under the 2026 Budget and assesses actual fiscal performance of Kebbi State against the 2026 Revised Budget using classifications derived from the National Chart of Accounts (NCOA). It provides a structured analysis of performance across Revenue, Personnel Costs, Overhead Expenditures, Capital Investments, and Other Recurrent Commitments.

The report is presented in the context of a nationally improving macroeconomic environment. Nigeria's headline inflation rate, which stood at a high of over 34% at its peak in mid-2024, has declined substantially to approximately 15.1% by January 2026 and 15.06% in February 2026, before edging slightly upward to 15.38% in March 2026, partly driven by transportation cost pressures linked to global energy market tensions. This sustained disinflation trend — spanning eleven consecutive months — has helped ease cost pressures on public expenditure management, even as rural inflation remains relatively elevated at 17.22% year-on-year in March 2026, with implications for service delivery costs in communities across Kebbi State.

Critically for state-level fiscal management, the Federal Government's Executive Order No. 9 of 2026, which directs remittance of oil and gas revenues to the Federation Account, is expected to improve the volume and predictability of FAAC allocations to subnational governments going forward. The March 2026 FAAC distribution from Q1 earnings amounted to N2.036 trillion across all tiers, the highest monthly allocation within the period, boosted in part by a ₦200 billion federal augmentation.

However, as noted in the review of the Q1 2026 data, a number of Ministries, Departments and Agencies (MDAs) reported zero or near-zero actual revenue and expenditure figures for the quarter. This may reflect data capture and reporting lags rather than a complete absence of activity, and the State is committed to ensuring that the data for subsequent quarters is more complete and accurately reflects actual fiscal transactions. The narrative sections below draw on the best available data for Q1 2026 and, where applicable, provide contextual explanations for data gaps and performance deviations.

## 1.B Revenue Performance

Total revenue for Q1 2026 reflects the state's continued dependence on federally distributed revenues as the primary source of funding for public expenditure. The State Government's principal revenue streams include the Statutory Allocation from the Federation Account, Value Added Tax (VAT) receipts, Electronic Money Transfer Levy (EMTL), and Internally Generated Revenue (IGR) from various MDAs.

Total revenue generated in Q1 2026 amounted to ₦51.5 billion (excluding opening balance), accounting for 15.2% of the total annual revenue projection for the year. The primary sources of income included Statutory Allocation (₦21.3 billion), Value Added Tax (₦26.5 billion), and Internally Generated Revenue (₦3.2 billion). Generally, the total revenue performance year to date stands at 51,539,779,617.71, which represents 15.2% of the total revenue projection.

The State Government's share of Federal Allocation, which is the majorly revenue source that comprises statutory allocation from oil revenue, share of VAT, Exchange gain, Ecological Fund Electronic Money Transfer Levy (EMTL), FOREX Equalisation Non-Mineral and Solid Mineral. Although, no revenue was recorded for Ecological funds in the year under review. These revenue components continues to show growth when compared with previous years

However, the Q1 2026 data shows that a number of revenue-collecting MDAs reported zero actuals, which is inconsistent with expected activity levels. Key MDAs flagged for underperformance against their 2026 revenue estimates include the Ministry of Agriculture and Food Security, the Accountant General's Office, the Ministry of Works and Transport, the Ministry of Budget and Economic Planning, the Ministry of Water Resources, the Ministry of Livestock Development and Fisheries among others.

The State Government acknowledges these performance gaps and is committed to investigating the underlying causes, whether from delayed remittances, data entry backlogs, or institutional capacity constraints, and will take corrective action to accelerate IGR collection across all MDAs in the subsequent quarters.

On a positive note, at least two revenue-collecting MDAs exceeded their 2026 budget targets in Q1, and certain IGR line items also surpassed their budget projections, which reflects the early traction of IGR reform initiatives. These achievements will be built upon in the remaining quarters of the year.

### **1.C Recurrent Expenditure Performance**

Recurrent expenditure in Q1 2026 covered the state's personnel emoluments, overhead costs, and other recurrent commitments. The implementation of the National Minimum Wage continues to influence personnel costs, with the State Government maintaining its commitment to timely salary payments across all MDAs in line with its social contract with public servants.

Personnel expenditure remained the dominant recurrent spending category, driven by salary obligations across the civil service, primary health care workers under the State Primary Health Care Development Agency (SPHCDA), and teaching staff across basic education institutions in the 21 Local Government Areas. Overhead expenditure management continued to reflect the State's cost-containment approach, with spending limited to essential operational requirements.

It is noted, however, that several MDAs recorded zero actual expenditure for Q1 2026, including the Office of the Secretary to the State Government (SSG) and several of its parastatals. Given the operational nature of these entities, it is unlikely that no expenditure occurred during the quarter. The State is therefore committed to ensuring that all actual expenditure data is captured

and accurately reported in the Subsequent quarters, working with the Accountant General's Office to retrieve missing transaction records.

Foreign debt service data was also absent from the Q1 2026 reports. Given that the state has active foreign loan obligations, including repayments to multilateral and bilateral creditors, these figures will definitely be captured in the forthcoming Q2 2026. Domestic and foreign loan repayments will continue to be serviced as due to maintain the state's credit standing.

Other recurrent commitments, including grants to local government areas, statutory transfers, and social protection expenditures, were executed in accordance with the approved budget provisions. The State Government remains vigilant in managing its recurrent obligations to ensure that budget execution does not crowd out capital investment priorities.

### **1.E Capital Expenditure Performance**

Capital expenditure implementation in Q1 2026 reflects the early-year pattern typical of subnational budget execution, where procurement processes, project mobilisation, and fund releases for capital projects take time to be completed. The State Government has placed significant emphasis on infrastructure development, with priority investments in road rehabilitation, school construction and renovation, healthcare facility upgrades, and water resources development.

For the Primary Healthcare sector, expenditure performance in Q1 2026 was below expectations. PHC capital investments — including the upgrade of Primary Health Care Centres (PHCCs) in underserved Local Government Areas, solar-powered cold chain installations, supply of medical consumables, and WASH infrastructure at PHCCs — are vital for the state's compliance with the Basic Health Care Provision Fund (BHCPF) framework and the World Bank Hope.Gov project commitments. The poor PHC expenditure performance in Q1 must be urgently addressed through accelerated fund releases and project approvals in Q2.

In the Basic Education sector, capital expenditure was directed toward the construction and renovation of classrooms, provision of furniture, perimeter fencing, and early childhood care infrastructure. The State Universal Basic Education Board (KEB-SUBEB) is expected to intensify the release of Universal Basic Education (UBE) counterpart funding to match federal releases and ensure compliance with UBEC guidelines.

All MDAs have been directed to accelerate fund requests for the completion of ongoing and new projects, ensuring alignment with the state's strategic priorities as contained in the State Development Plan and the Renewed Hope Development Agenda. The State will continue to leverage donor support and counterpart funding instruments to complement internally mobilised capital resources.

### **1.D Conclusions**

the Q1 2026 data reveals several areas that require urgent attention. Revenue performance is mixed, with several MDAs reporting zero or negligible actuals, and a number of key revenue lines — including Augmentation receipts, Ecological Fund transfers, and Non-Tax IGR — absent from

the current data. On the expenditure side, zero-actuals for operational MDAs such as the SSG cluster suggest data completeness challenges that must be resolved.

The State Government is committed to addressing these issues in the following ways:

- Conducting a comprehensive reconciliation of revenue and expenditure data with the Accountant General's Office to capture all Q1 transactions.
- Accelerating the reporting of foreign debt service figures and ensuring they are included in the Q2 BIR.
- Engaging all underperforming MDAs to review revenue targets and implementation strategies, and to provide written explanations for deviations.
- Ensuring that the revised budget column is visible and properly populated in all NCOA segment reports.
- Providing a copy of the budget amendment bill and virement schedule to accompany the BIR publication.
- Intensifying PHC expenditure to close the performance gap and meet BHCPF and Hope.Gov project commitments.

As the 2026 fiscal year progresses, Kebbi State remains focused on translating budget allocations into tangible development outcomes for its citizens. Guided by the principles of transparency, accountability, and results-oriented public financial management, the State Government will continue to strengthen its budget execution systems, improve data quality and reporting, and accelerate the delivery of priority capital projects in subsequent quarters.

## 3 Primary Healthcare Budget Performance

### 3.A Overview

The Primary Healthcare (PHC) sector occupies a central place in Kebbi State's social sector delivery framework, providing the foundational tier of healthcare services to communities across the state's 21 Local Government Areas. The Q1 2026 PHC budget performance, however, fell significantly short of expected levels, and this is a matter of priority concern that the State Government is committed to addressing.

The underperformance in PHC expenditure for Q1 2026 is partly attributable to the timing of fund releases, procurement lead times for medical consumables and equipment, and delays in the operationalisation of specific project contracts. The State acknowledges that this is an area requiring urgent remedial action, particularly in light of the state's commitments under the Basic Health Care Provision Fund (BHCPF) and the World Bank HopeGov project.

Despite the Q1 data gaps, the State Government has sustained its commitment to improving primary healthcare access. Key ongoing and planned PHC investments include:

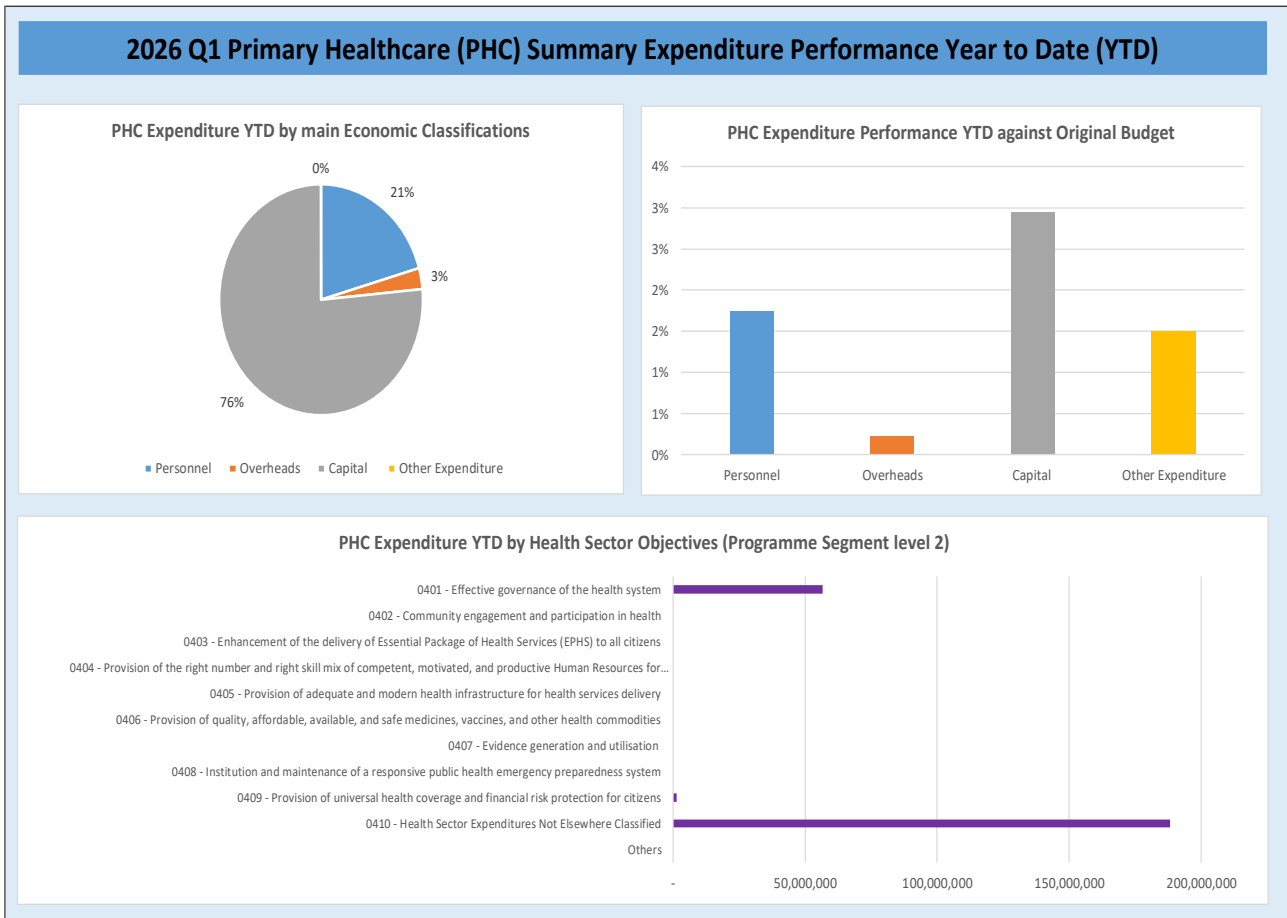

- Solar-powered cold chain installations at PHCCs in underserved LGAs, to support routine immunisation and vaccine storage.
- Supply of essential medicines, medical consumables, and diagnostic equipment to primary health facilities.
- Borehole construction and WASH infrastructure upgrades at PHCCs to meet minimum service delivery standards.
- Continued employment and deployment of community health workers and skilled birth attendants under the SPHCDA.
- Operationalisation of the Drug Revolving Fund (DRF) scheme at selected PHCCs to improve drug availability and sustainability.
- Capacity building programmes for primary health facility staff, including training in integrated community case management (iCCM) and skilled birth attendance.

The BHCPF continues to play a pivotal role in expanding access to primary care services, particularly in rural and underserved communities. Direct facility funding through the BHCPF has improved drug availability and reduced out-of-pocket expenditures for maternal and child health services. The State Government is committed to ensuring timely submission of documentation for BHCPF counterpart fund releases to maintain uninterrupted benefit delivery.

The Kebbi State Contributory Healthcare Management Agency (KECHEMA) reported zero revenue actuals in Q1 2026, which is inconsistent with the agency's operational mandate. The State will investigate

this reporting gap and ensure that KECHEMA’s actual revenue collections are properly captured and reported in subsequent quarters.

**Figure 3: Summary of Primary Health Care Budget Performance for Quarter and Year to Date**

## 4 Basic Education Budget Performance

### 4.A Overview

The Basic Education sector is a key driver of Kebbi State's human capital development agenda. The State Government remains committed to improving educational outcomes for children across its 21 Local Government Areas, with priority attention to access, quality, equity, and learning outcomes from Early Childhood Care and Development (ECCD) through to Junior Secondary School level.

Q1 2026 Basic Education expenditure reflects a degree of early-year startup, consistent with the typical pattern of budget execution. Personnel expenditure — covering salary payments to primary and junior secondary school teachers and support staff under the Kebbi State Universal Basic Education Board (KEB-SUBEB) and the State Ministry for Basic and Secondary Education — forms the largest component of recurrent spending in this sector.

However, both KEB-SUBEB and the Ministry for Basic and Secondary Education were identified as significantly underperforming against their 2026 revenue estimates for Q1. This performance gap will require specific engagement with these MDAs to understand the drivers of the shortfall and put in place accelerated collection strategies for Q2 and beyond.

On the capital side, the State Government has continued to prioritise the following investments in basic education infrastructure and learning quality in 2026:

- Construction and renovation of classrooms in selected primary and junior secondary schools across all 21 LGAs.
- Provision of school furniture, learning materials, and instructional resources to improve learning environments.
- Perimeter fencing and safe school space improvements, with special attention to girl-child safety.
- Expansion of Early Childhood Care Centres (ECCCs), incorporating pre-primary learning and nutritional support for children aged 3–5.
- Digital learning pilots in urban schools, with plans to scale successful models to semi-urban areas in subsequent phases.
- Inclusive education programmes targeting children with disabilities and out-of-school children.
- Teacher professional development programmes focused on literacy, numeracy, and pedagogical quality improvement.

The State Government is committed to maintaining its UBE counterpart funding obligations and will prioritise timely releases to KEB-SUBEB to ensure continued matching of federal UBEC allocations. The State also remains engaged with development partners, including the World Bank, UNICEF, and USAID, to leverage additional resources for education sector improvement under various ongoing programmes.

Key challenges in the sector, including teacher deployment imbalances, maintenance backlogs at school facilities, inadequate supply of instructional materials, and data quality issues in the out-of-school children

database, will continue to be addressed through targeted administrative and programmatic interventions in 2026.
